Para os esteiros e os pântanos usavam, até a época de Bruto, embarcações de coiro, mas hoje em dia inclusive as talhadas a partir de um soio tronco são já raras (Strab. III, 3, 7)

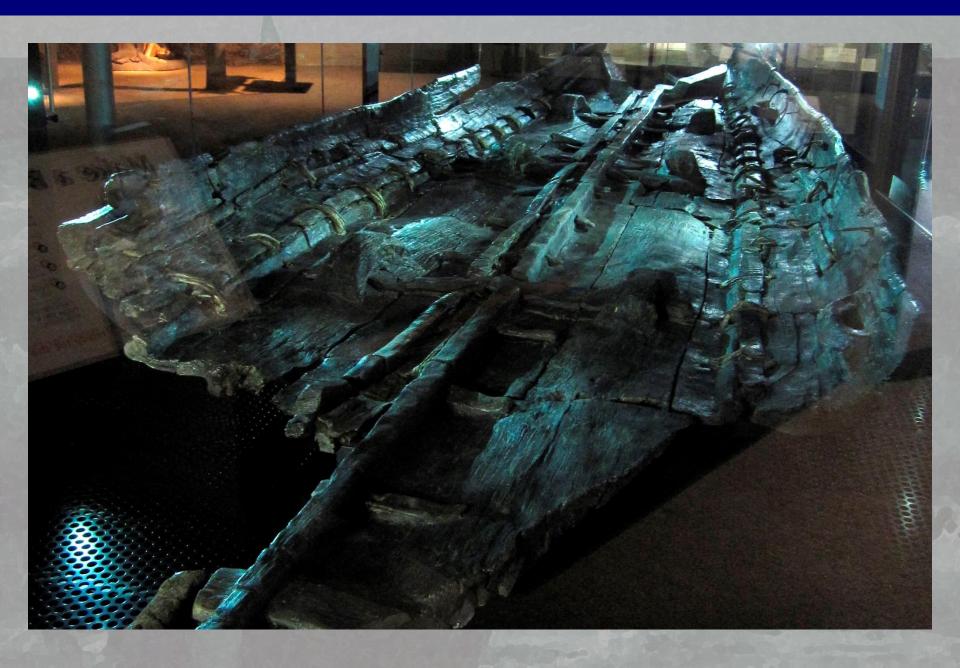

Ainda na Oceano Britânico se encontram balsas de canas entretecidas cobertas de coiro (Plin. HN, VII, 206)

Este (o estano) é valiossimo; é chamado pelos gregos kassiteros, era a lenda que se encontrava nas ilhas do mar Atlântico e que era transportada em barcos de canas entretecidas e cobertos com peles cosidas (Plin. HN, XXXIV, 156)
